# Hi there!

My Name is My Olsson, I'm born 1992 and got the title Digital Content Designer from my education with the same name, which I graduated from in May 2019.

I currently work as a designer at FirstVet, where I have been since January 2020. In addition to that, I make time for some smaller freelance commitments where I create everything from logos and posters to graphic profiles. I love to work in teams, but have no problem working independently as well. I breathe creative ideas and love brainstorming them with other creative minds!

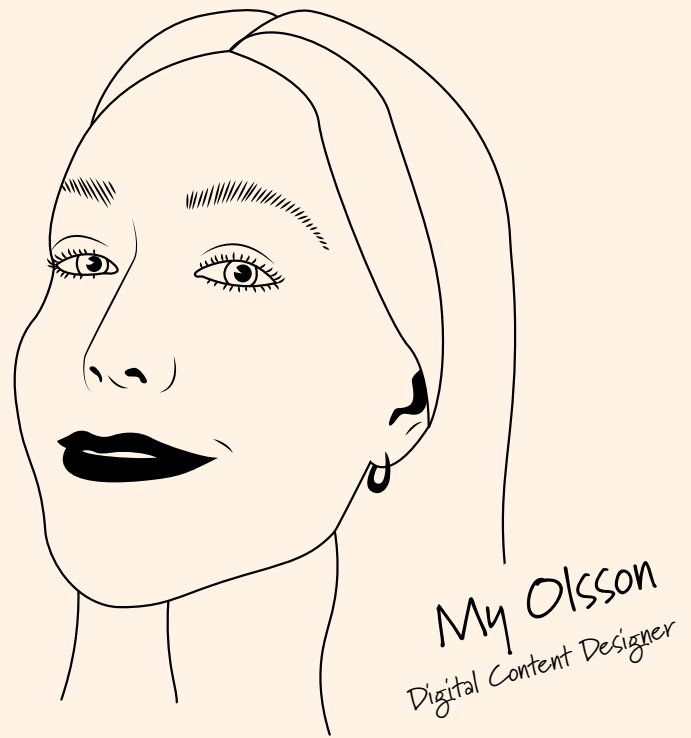

## Except for my work achievements, here are some honorable mentions:

I ran the Instagram account @hundarpatuben, which I started in January 2019. The account has received attention both on social media with over 55 thousand followers and in the media.

From 2013–2017, I ran a podcast with my friend with new episodes every other week.

I was also a mentor to a 14-year old girl for a year 2019 – 2020, through the organisation Mentor.

In my spare time I like to play with my dog, take care of my plants, watch TV shows and cook (And eat it).

## Experience

- 2020** Designer in the Marketing team at FirstVet. Creating all types of marketing across different markets.
- 2019** Freelanced full time as a Graphic Designer at the advertising agency Ruth.
- 2019** Digital Content Designer Intern at the Communication Agency Tomorro (16 v.).
- 2018** Digital Content Designer Intern at the Event & Brand Experience Agency Nine Yards (10 v.).
- 2017** Worked as a Content Manager for Menskopp.se.
- 2017** Started a webshop where I sold my own prints and posters, and created illustrations on demand.
- 2014** Worked as a Marketing Coordinator at Zenicor Medical Systems (2014-2019).

More projects I have taken on as a freelancer during the years are displayed in my portfolio. I have also worked for some non-profit organisations. As well as a project & office manager at Svenskt Demenscentrum (2011–2014), receptionist (2011) and as kitchen staff at McDonalds (2009-2011).

## Skills

## Education
