# Hi there!

My name is My, I was born in 1992 and I am a Digital Designer/Art director living in Stockholm with my boyfriend and dog Kerstin.

I currently work full-time at FirstVet as a Designer and Art Director, whilst sometimes taking on smaller freelance assignments on the side.

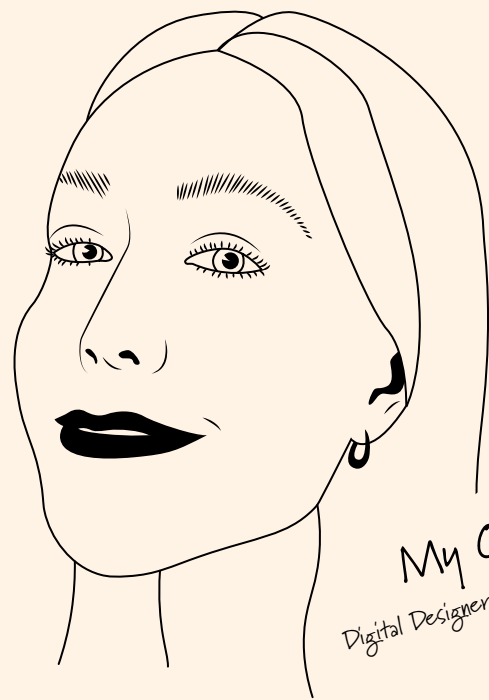

I graduated from MedialInstitutet in 2019, but I have been working with design longer than that. I previously ran a webshop for posters and created everything from logos to graphic profiles, etc.

I love working in a team but are working independently when required. I'm used to both fast-paced campaigns and long-term projects. I breathe creative ideas and love brainstorming them with other creative minds!

I'm running the Instagram account @hundarpatuben which I started in January 2019, and it has received attention both in news outlets and on social media. When peaking the account had close to 60k followers.

I also ran two different podcasts between 2013-2017.

In my spare time, I enjoy taking care of my plants, playing with ceramics, watching TV shows, cooking & eating food.
